PKI Hierarchy, Usage and Application

Application Areas

CURRENT WORKS IN IRAN

1. Update Certificate Policy (CP)

- ❑ Online identification based on 2-factor strong authentication by applying proof of presence & Liveness detection approved as identification method for Assurance Level 1
- ❑ Online identification based on 3-factor strong authentication by applying proof of presence & Liveness detection approved as identification method for Assurance Level 2

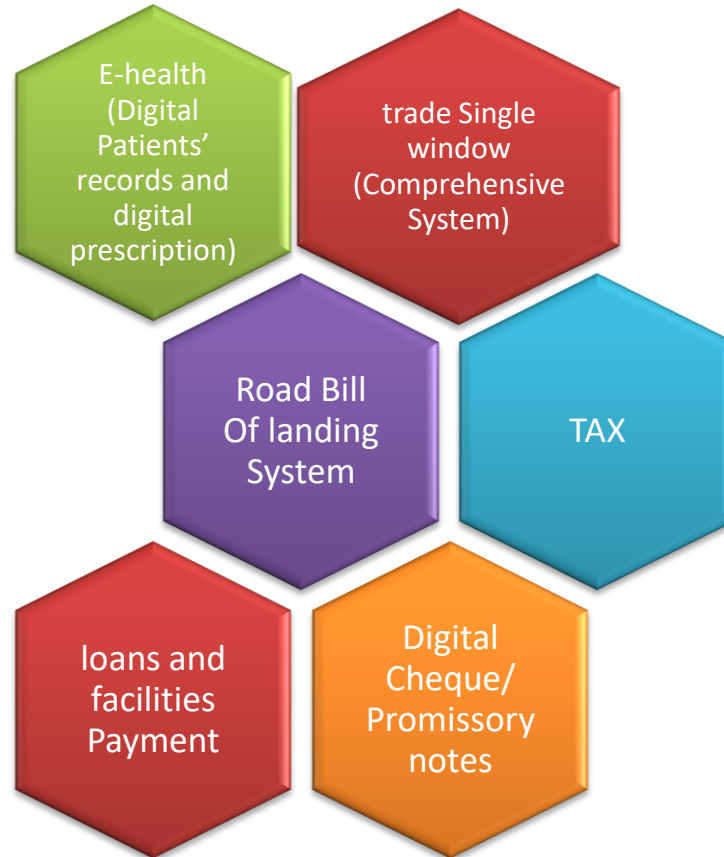

1. Update Certificate Policy (CP)-2

- Adding Encryption and System Certificates to the list of different certificates issued by ICAs
- Updating security requirements for Hardware/software security modules in all levels
- Reducing CRL issuance and publications intervals
- Mandating ICAs to provide OCSP Services for all the certificates issued in all assurance levels

New Services/Organization Using Digital Certificates

FUTURE PLANS

Future Plans

Our Next Steps

Development of an integrated system with the cooperation of private sector to produce electronic documents, digital signing of the documents and verification and validation of signed ones.

Developing the use of Digital Signature in different areas such as custom services, educational services such as providing certificates,...

Developing and Empowering of Intermediate CAs, especially private ICAs
